Titel	Fernkurs: Upgrade Oracle Certified Professional, Java SE 7 Programmer, 1Z0-8
Untertitel	Der Vorbereitungslehrgang auf die offizielle Oracle Certified Professional, Java SE 7 Programmer 1Z0-805 Upgrade Prüfung als Fernkurs.
Einleitung	<p>Die Oracle Certified Professional (OCP), Java SE 7 Programmer Zertifizierung richtet sich an Software-Entwickler, welche ihre Kenntnisse der Java Programmiersprache attestiert haben möchten.</p> <p>Bereits zertifizierte Java Entwickler können mit dieser Prüfung (1Z0-805) auf die Java SE 7 Version upgraden.</p> <p>Mit der Variante Fernkurs erarbeiten Sie sich die theoretischen Grundlagen der neuen Java SE 7 Features selbständig.</p>
Ihr Nutzen	
Voraussetzungen	
Teilnehmerkreis	Dieser ZFI-Lehrgang richtet sich an bereits zertifizierte Java Programmierer (z.B. Java 5 oder 6 oder einer früheren Version).
Unterlagen	<ul style="list-style-type: none">- Begleitbuch- Tutorials- Intranet Site
Folgekurse	
Inhalt	<p>Upgrade Oracle Certified Professional, Java SE 7 Programmer</p> <ul style="list-style-type: none">- Language Enhancements- Develop code that uses String objects in switch statements- Develop code that uses binary literals and numeric literals with underscores- Develop code that uses try-with-resources statements (including using classes that implement the AutoCloseable interface)- Develop code that handles multiple Exception types in a single catch block- Develop code that uses the diamond with generic declarations- Design Patterns- Design a class using a Singleton design pattern- Apply object composition principles (including has-a relationships)

- Write code to implement the Data Access Object (DAO) pattern
- Design and create objects using a factory pattern

- Database Applications with JDBC

- Describe the interfaces that make up the core of the JDBC API (including the Driver, Connection, Statement, and ResultSet interfaces and their relationship to provider implementations)
- Identify the components required to connect to a database using the DriverManager class (including the jdbc URL)
- Construct and use RowSet objects using the RowSetProvider class and the RowSetFactory interface
- Use JDBC transactions (including disabling auto-commit mode, committing and rolling back transactions, and setting and rolling back to savepoints)
- Submit queries and read results from the database (including creating statements, returning result sets, iterating through the results, and properly closing result sets, statements, and connections)
- Create and use PreparedStatement and CallableStatement objects

- Concurrency

- Identify code that may not execute correctly in a multi-threaded environment.
- Use collections from the java.util.concurrent package with a focus on the advantages over and differences from the traditional java.util collections.
- Use Lock, ReadWriteLock, and ReentrantLock classes in the java.util.concurrent.locks package to support lock-free thread-safe programming on single variables.
- Use Executor, ExecutorService, Executors, Callable, and Future to

execute tasks using thread pools.

- Use the parallel Fork/Join Framework

- Localization

- Describe the advantages of localizing an application
- Define a locale using language and country codes
- Read and set the locale with a Locale object
- Build a resource bundle for a locale
- Call a resource bundle from an application

- Format dates, numbers, and currency values for localization with the NumberFormat and DateFormat classes (including number format patterns)

- Java File I/O (NIO.2)

- Operate on file and directory paths with the Path class
- Check, delete, copy, or move a file or directory with the Files class
- Read and change file and directory attributes, focusing on the BasicFileAttributes, DosFileAttributes, and PosixFileAttributes interfaces
- Recursively access a directory tree using the DirectoryStream and FileVisitor interfaces
- Find a file with the PathMatcher interface
- Watch a directory for changes with the WatchService interface

Beitrag

Der Teilnehmerbeitrag versteht sich rein netto. Das ZFI ist (gemäss MwSt-Gesetz) nicht Mehrwertsteuerpflichtig und erhebt somit keine MwSt. Bei länger als einen Monat dauernden Lehrgängen ist die Zahlung des Teilnehmerbeitrages in mehreren Raten möglich (pro rata temporis).
