Titel	Advanced Windows Store App Development Using C#
Untertitel	
Einleitung	In this course the students will learn the more advanced programming skills and techniques that they can use to optimize their Windows Store app and differentiate their app from other apps in the Windows Store. These advanced skills and techniques include a combination of both design and development skills. The students will also learn about supporting the apps that they have published to the Windows Store.
Ihr Nutzen	After completing this course, students will be able to: <ul style="list-style-type: none">- Add animations and transitions in a Windows Store app to improve the user experience.- Localize the Windows Store app UI.- Brand the Windows Store app and improve the loading experience with a splash screen.- Use various storage mechanisms, choose a suitable caching strategy for their Windows Store app, and use advanced file access methods.- Create custom controls, extend templated controls, and create and consume WinMD components.- Implement the Print and Settings contracts and the Play To API.- Work with the Push Notification Service (WNS).- Capture media with the camera and microphone.- Create and consume background tasks.- Discover device capabilities, interact with devices, and act upon sensor

data.

- Implement Windows Store trial licensing and in-app purchasing and advertising.

- Understand how to manage Windows authentication and web authentication in Windows Store apps.

- Diagnose problems and monitor application behavior using tracing and profiling tools and APIs.

Voraussetzungen

Before attending this course, students must have:

- 6 ? 12 months experience programming in HTML5

- 3 ? 6 months experience using Visual Studio 2012 (including experience using Windows 8's preview builds)

- 1 month of experience working on Windows 8 apps

Teilnehmerkreis

This course is intended for professional developers who have 1 or more years of experience creating applications for a production environment and who are comfortable programming in C# and XAML to create Windows 8 apps.

Unterlagen

Folgekurse

Inhalt

-
Module 1: Store Apps Essentials
Review Essentials - Presentation

Review Windows 8 App Essentials - Under the Hood

-
Module 2: Implementing Animations and Transitions
Using Animation

Working with Transitions and Transformations

-

Module 3: Implementing Globalization and Localization Working with Resource Files

Implementing Culture-Specific Formatting

-

Module 4: Branding and a Seamless User Interface Customizing the Splash Screen

Differentiate your app with branding

-

Module 5: Advanced Data Scenarios in a Store App Store App Storage Options

Implementing Data Caching

Advanced File Functionality

-

Module 6: Creating Reusable Controls and Components Creating Custom Controls

Extending Existing Controls

Creating and Consuming WinMD Components

-
Module 7: Implementing Advanced Contract Scenarios
The Print Contract

The Play To Contract

-
Module 8: The Push Notification Service (WNS)
The Push Notification Service (WNS)

Communicating with the Push Notification Service (WNS)

-
Module 9: Capturing Media
Using CameraCaptureUI to Capture Pictures, Videos or Audio

Using MediaCapture to Capture Pictures, Video, or Audio

-
Module 10: Background Tasks
Creating Background Tasks

Consuming Background Tasks in a Store App

-
Module 11: Working with Sensors and Devices

Working with Sensors

Working with Devices

-

**Module 12: Generating Revenue with your App
Implementing Trial Functionality in a Store App**

Implement In-App Purchases

Advertising in a Store App

-

**Module 13: Securing Store App Data
Managing Authentication**

Managing Web Authentication

Encryption in Store Apps

-

**Module 14: Tracing and Profiling Store Apps
Tracing a Store App**

Profiling a Store App

Beitrag

Der Teilnehmerbeitrag versteht sich rein netto. Das ZFI ist (gemäss MwSt-Gesetz) nicht Mehrwertsteuerpflichtig und erhebt somit keine MwSt. Bei länger als einen Monat dauernden Lehrgängen ist die Zahlung des Teilnehmerbeitrages in mehreren Raten möglich (pro rata temporis).
